

Year 2 Homework

11.11.22

In PSHRE we have been looking at how we can look after the environment. Please can you research ways in which we can look after the environment and think about why it is important for us to protect our planet?

Here are some questions to help you:

- What can we do to look after the environment?
- What does reduce, reuse, recycle mean?
- What changes can you make at home to look after the environment?
- What changes can we make in school to look after the environment?
- Why is it important for us to look after the environment?
- What changes are being made around the world to help look after the environment?

Be creative in how you present your information. Here are some ideas for how you could complete your homework:

- Create a leaflet providing information on how to look after the environment.
- Make a presentation that we can share in class.
- Create a poster that we can display around the school.

Due: Monday 5th December
