

Year 3 homework - Maths

Date set: Friday 11th November 2022

Due in: Monday 5th December 2022

Hi Year 3!

Your homework is to 'show me what you know about time.'

I feel that time is something that needs to be talked about much more as it is such a vital skill - not just in school, but in real life situations.

Ideas for you:

- If you are a little rusty on telling the time, why not practice and put in some evidence of what you've done? Eg a video, a write up of what you did or even some photos in your book?
- Investigate how long various journeys could take
- Make a clock
- Make a video or Powerpoint presentation on what you know already?

It is totally up to you on what you do as it is an open ended task.

Any questions, please ask.

I'm really excited to see what you come up with!

Miss Moss
