

# Homework - A Presentation...

For the first piece of homework in Year 4, I would like you to deliver a 'presentation' to the class (max. **2 minutes** which isn't very long!). You should present on **something that really interests you**. This could be **anything** at all - the choice is yours! You might choose a hobby, book or your favourite animal. There has been a huge range of topics in the past.

Your objective is to make your presentation as interesting as possible! Be creative!

You might want to:

- Make a poster about your topic.
- Bring in objects to show during your presentation.
- Display something on the interactive whiteboard (you'll need a memory stick, or you can email it to me: [bstrahan@layston.herts.sch.uk](mailto:bstrahan@layston.herts.sch.uk)).
- Plan some interaction with the audience (e.g. ask a question)
- Practise presenting at home

There will be opportunities to share your 'presentation' over the coming weeks. I look forward to finding out about your chosen interest.

If the idea of speaking in front of the class is too daunting, you can still prepare a presentation (but skip the actual 'presenting' in front of people).

**Date set: Friday 23<sup>rd</sup> September**

**Complete by: Friday 14<sup>th</sup> October**

## **Bonus homework task:**

In science, we have started learning about electricity. Go to each room in your house and identify all the different electrical devices in each room. You could record this in a table. Which room has the most electrical devices?

Additionally, you could tally the number of plug sockets in each room. Which room has the most? Which room has the least?
