

Year 2 home learning set on 26.04.24 due in 17.05.24

Time

In year 2 children will learn to:

- Tell the time to the hour ('o' clock)
- Tell time to the half hour (half past)
- Quarter past and quarter to
- Writing time - analogue and digital

To support the children with our upcoming maths unit on time please spend some time introducing your child to the world of time!

Have a look around your house to find the things you have to tell you the time and practise reading an analogue clock and a digital clock.

Learning activities

- Make an interactive clock using the template on the Year 2 home learning area or make your own!
- Create a poster all about time
- Create a weekend diary to include what you did every hour and draw the clock above each activity - template is on the website but feel free to make your own!
- Play what's the time Mr Wolf!

If you would like me to print any of the templates for your child please just let me know! ☺
