

Autumn Harvest (BBC)

(Chorus)

Welcome everybody

Welcome, time to party

Welcome everybody

Welcome to the autumn harvest

Seasons come seasons go (yeah we like it)

Autumn winds start to blow (yeah we like it)

When those leaves start to fall

Changing colours and all

See them dance through the breeze

Catch them if you please

Hey hey hey hey

(Chorus) x 2

Welcome everybody

Welcome, time to party,

Welcome everybody

Welcome to the autumn harvest

Autumn skies they will glow (yeah we like it)

So many colours on show (yeah we like it)

As we see the squirrels run

Hiding acorns having fun

Children coming out to play

With conkers every day

Hey hey hey hey

(Chorus) x 2

Welcome everybody

Welcome, time to party,

Welcome everybody

Welcome to the autumn harvest

Bring your marrow and come (hey)

Bring some apples and come (hey)

Bring the nuts and come (hey)

Bring all the crops and come come come

Bring your pumpkin and come (hey)

Bring some berries and come (hey)

Bring the conkers and come (hey)

Bring all the crops and bring all the crops and

When we see the harvest moon (yeah we like it)

All the crops will come soon (yeah we like it)

See the birds flying high

Heading south through the sky

As they fly to migrate

Hedgehogs hibernate

Hey hey hey

(Chorus) x 2

Welcome everybody

Welcome, time to party,

Welcome everybody

Welcome to the autumn harvest
