

Homework 2 Y1 Life under water

Set: 14.3.25 Return: 31.3.25

This half term we have been celebrating British Science week. This terms homework is to create an information poster naming and identifying common animals and plants found in the marine life.

You can use a variety of materials to decorate your poster as it links nicely to what we have been learning about in Science (Materials).

If you fancy a challenge, see if you can write the types of threats seen in the marine life.
Looking forward to seeing your posters!
