

Homework - Ancient Egypt

In class, we have just started learning about Ancient Egypt. There is so much to learn about Ancient Egypt, and we can't possibly cover it all in school, so your task is to research some areas that interest you:

- Modern day Egypt (Where is it? Population? etc.)
- A timeline of Ancient Egypt
- The River Nile
- Clothes
- Pharaohs
- Pyramids
- Egyptian Gods
- Hieroglyphics
- Mummification and the afterlife
- Tutankhamun and the discovery of his tomb

You could make a **poster**, **fact book** or some **slides**.

You could even make a '**death mask**' like Tutankhamun's, above (you can find some craft ideas online).

Google Slides

I have set up a Google Slides template in Google Classroom. You can log in with your **emoji password** here:

edu.wonde.com/login/layston and then select "Classroom".

If you're using a tablet, you might want to download **Google Slides** (free app). Please ask if you need a new copy of the emoji password.
