

## Homework 2 Y1 Life under water

Set: 23.1.26   Return: 13.2.26

This terms homework is to create an information poster naming and identifying common animals and plants found in the marine life.

You can use a variety of materials to decorate your poster as it links nicely to what we have been learning about in Science (Everyday Materials).

If you fancy a challenge, see if you can write the types of threats seen in the marine life.  
Looking forward to seeing your posters!
