

Year 3 Home Learning Autumn 1

Geography- Volcanoes

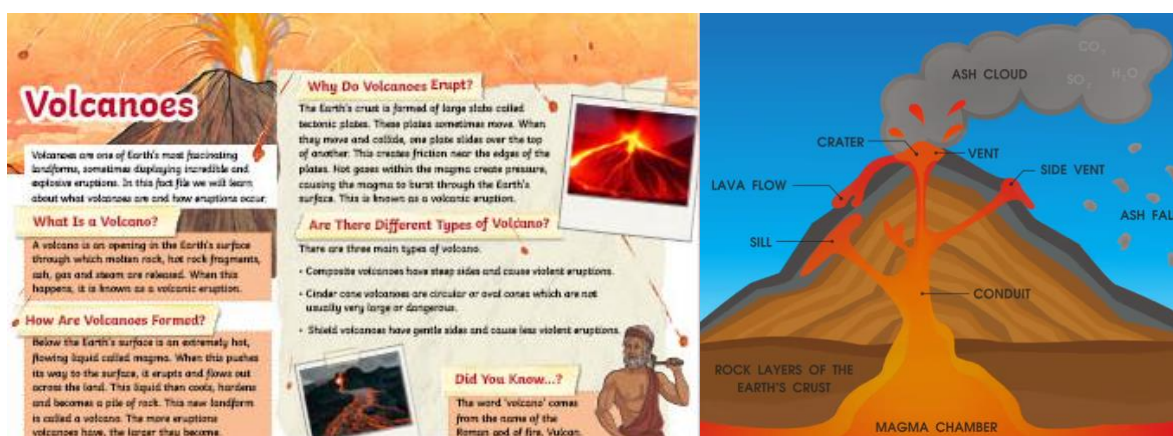

Question- What is a volcano?

Set 26/09/25

Due 17/10/25

Aim- The children become more familiar with the earth's structure, volcanoes and how they are formed.

Outcome- The children are to create a fact file about volcanoes. (Children can include the earth's structure, earthquakes, mountains, tsunamis)

Activity ideas:

- Research the earth's structure.
- YouTube videos on the earth structure and volcanoes
- Documentaries about the earth and natural disasters
- Research facts about volcanoes
- Make a 'child' friendly volcano at home

There will be raffle tickets for the children who have shown effort in this home learning and can discuss their findings and new knowledge!
